

Statement from Seafood Connection Holding B.V.

**Seafood
connection**

Seafood Connection becomes Umios

A new name, the same trusted quality

For 3 decades, Seafood Connection has been one of Europe's leading frozen food suppliers.

Now, we're taking the next step: **from April 1st 2026**,
We will unite with our parent company Maruha Nichiro Corporation
and 176 sister companies worldwide.

All under one, strong global name: **Umios**

Why Umios?

Meaningful: umi means "ocean" (Japanese), combined with "One" and "Solutions."

Unified: one global group instead of separate companies.

Future-focused: sustainability, transparency, and innovation at our core.

What stays the same?

Trusted brands: Seacon, Sealight, Blue Planet

Our people, values, and partnerships

The same quality, service, and processes

What's new

A global identity that reflects our scale

Broader range: seafood, meat, vegetables & more

Stronger sourcing power and shorter supply chains

Why now?

Celebrating 30 years in Europe
and embracing the future as part of one global family.

***It's simple:
If you need frozen food, call Umios.***
